Welcome...

Welcome to the 2022 Swansea Marina handbook which aims to provide you with all the information you need for a relaxing and pleasurable stay.

In this booklet you will find information relating to the marina and the local area. It also includes vital details of locking procedures and important safety information which will be of interest to the first time visitor.

Our teams are on hand daily to provide you with excellent service whilst mooring your boat with us. If you find that anything need clarifying or you have any questions at all please do not hesitate to contact us where we will be only too pleased to help.

Marina guide to facilities

Boatyard

We have a 20 tonne Marine Travel Hoist available. A crane facility is also available for masts etc. The yard has various businesses that undertake hull, GRP, wood, engineering and electrical repairs. Free storage ashore is offered to annual berthholders for a limited period (space permitting).

Water

Allow hose pipes to run for 30 seconds before filling tanks on the pontoons. Please recoil the hose pipes after use and do not leave the hose end in the water as this is unhygienic.

Laundry

The laundry is located on the ground floor at reception. The machines are coin operated (change available from reception).

Living Aboard

You cannot live on board as vessels may not be used for permanent habitation.

Electricity Supplies

Most of our berths have 240 volt / 16amp supplies. In addition many of our hammerheads also have 32amp supplies. Electricity is charged via a pre-paid card system.

To use electricity for the first time, simply purchase a £5 electricity card from reception. This card can also be used for future Top Ups.

Future top-ups can be made at reception using this card.

Diesel, Petrol & Gas

A diesel pump is located on the outside of the Marina Lock; diesel and gas bottle refills are available from 7.00am until half an hour before the office is closed.

Please ensure refuelling only takes place only at the fuel berth. Containers of fuel brought on site must still be poured at the refuelling berth away from other moored vessels

Free WIFI

Free WIFI is available to all berth holders. WIFI is available on pontoons A – S and at Marina Reception.

Out of hours Security 01792 646440

Security

Each bridgehead has a self locking gate, access is via a pontoon security card. Visitors will be issued with a 4 digit pin code. Please do not leave or prop the gates open; site security is in everyone's interest.

A security officer patrols the Marina at night and CCTV is in operation throughout the Marina.

Car Parking

All annual berth holders are entitled to two car park permits. Permit holders may park their vehicle for free at any of our three car parks providing they display their valid permit, subject to terms, conditions and availability.

Toilets and Showers

There is 24 hour access to these facilities by use of a Marina pontoon security fob. They are located at three locations:

- Reception building. A toilet for the disabled is also located here.
- Adjacent to the bridgehead on the North side of Phase I.
- Adjacent to the bridgehead on the South side of Phase II.
- A chemical toilet waste point is available at reception building.

A ship's toilet may not be used whilst in the Marina.

Refuse / Recycling

In order to keep waste costs to a minimum we encourage all berth holders to recycle. We provide the following disposal points around the Marina:

Pontoon Bridgeheads

- Glass
- Cans
- Plastic (Pontoons A – J located at bridgeheads, Pontoons K – U located at pontoons)
- Small bins for non recyclable waste

Boatyard / Hazardous Waste Point

- Cardboard
- Oil
- Oil Filters / Rags
- Antifoul Tins
- Gas bottles
- Batteries

Berth holders are expected to dispose electrical equipment, large packaging and rubbish that we currently do not recycle at their local amenity site.

Telephones

A public payphone is situated close to the North side bridgehead gate in phase I.

Safety & Security

General Safety

Safety equipment is installed on the pontoons at regular intervals. Each bridgehead has a safety map outlining these locations. Please familiarise yourself with this map.

Pontoon Safety / Adverse Weather

The pontoons can become very slippery when they are wet or icy.

Grit bins are situated close to each bridgehead.

High winds can cause mobility problems and strong gusts can catch you off guard. Customers are advised not to go out onto the pontoons in adverse weather conditions unless absolutely necessary. Particular care should be taken when negotiating the bridgehead ramps and getting on or off boats.

Always wear a Life Jacket

During 2020 three people fell off boats into the water at the Marina & locks.

Two were not wearing lifejackets and struggled to keep afloat in the water until help arrived. Please ensure life jackets are used.

Insurance

Please note that third party insurance for a minimum of £3,000,000 is mandatory for the duration of your stay at Swansea Marina.

Speed Limits

There is a 4 knot speed limit in the Marina Impounded water and river. Please control your wash.

Fire action

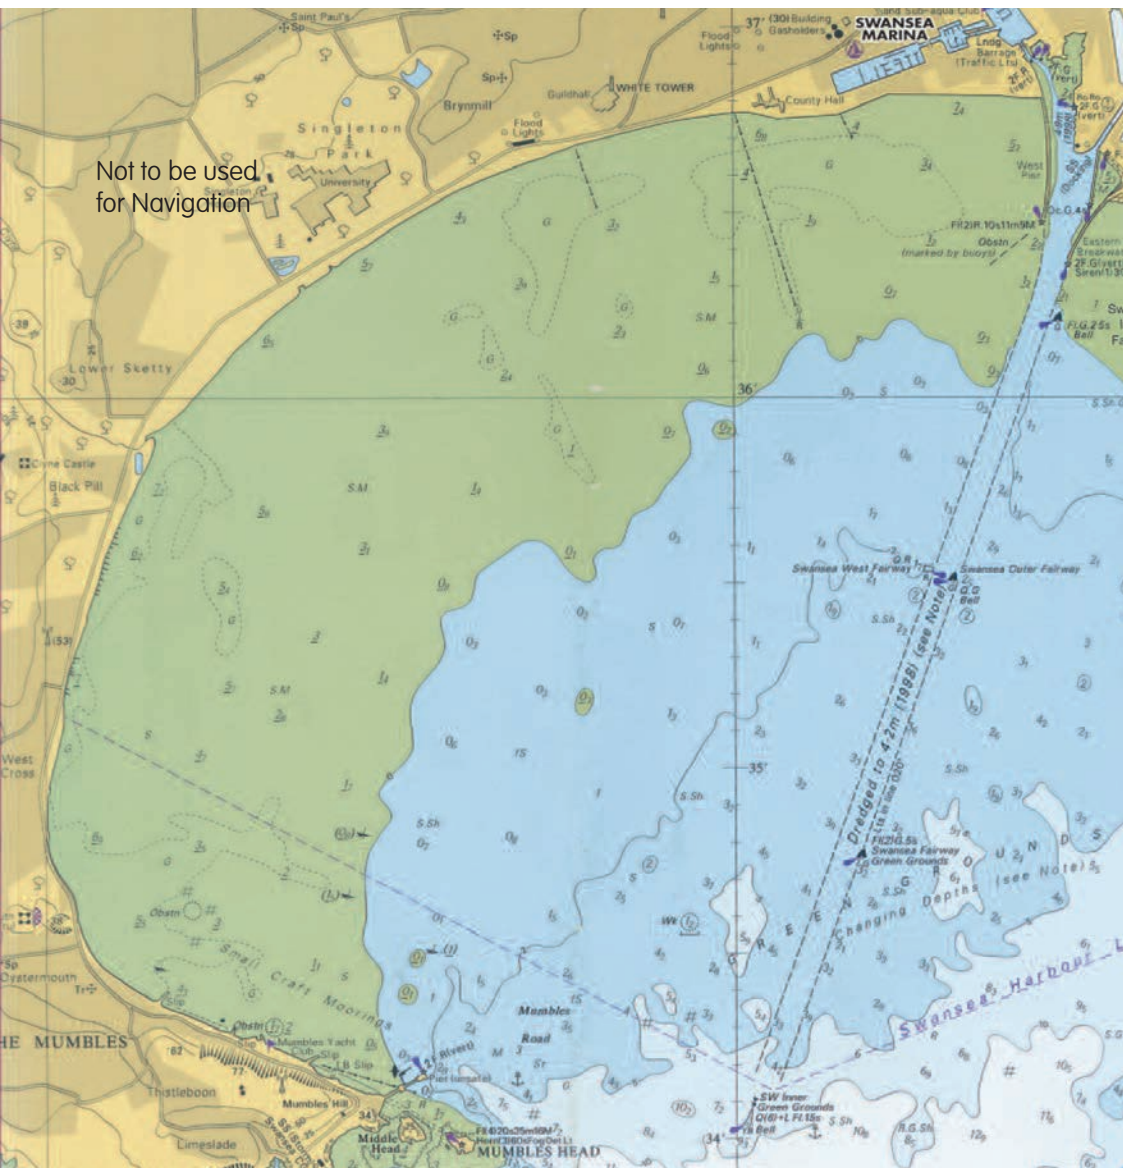

Shower blocks on hearing the alarm:

- 1 Leave the building immediately.
- 2 Contact Emergency Services 999.
- 3 Contact Reception on 01792 470310 or 01792 646440 (out of hours).

Pontoons / Boatyard on discovering a fire:

- 1 Raise the alarm (shout "FIRE" and alert boat owners).
- 2 Contact Emergency Services 999.
- 3 Contact Reception on 01792 470310 or 01792 646440 (out of hours).
- 4 Clear the area of people.
- 5 Only tackle the fire if it is safe to do so, with the extinguishers provided in the emergency cabinets.
Retreat to a safe distance upwind -
- 6 Do not run!
- 7 Do not stop to collect personal belongings.

Pilotage notes

In Swansea Bay tidal streams flow anti-clockwise for 9.5 hrs (Swansea HW - 3.5 to +6), with at times a race off Mumbles Hd. From HW - 6 to - 3 the stream reverses, setting N past Mumbles Hd towards Swansea. Keep seaward of Mixon Shoal. When N of SW Inner Green Grounds (SWIGG) SCM It buoy, Q (6) + LFI 15s keep to W of dredged channel and clear of commercial ships. Yachts must motor in harbour and approach, maximum speed 4kn.

Swansea Docks

All Marina users are reminded that we share the entrance to the river with the fairway for commercial shipping entering and leaving the port of Swansea.

It is very important that all boat owners obey the rules laid down by the authorities and give way to commercial shipping at all times.

Port Regulations

When entering the river all craft should maintain a listening watch on Swansea Dock's VHF channel 14 (Any instruction issued by the Harbour Master on this frequency must be followed).

If in doubt call "Swansea Docks" on VHF14 or "Tawe Lock" on VHF 18 ABP docks can also be contacted on 0870 6096699.

Entering and Leaving the Port

All pleasure craft using the port must observe the rules governing the "Prevention of Collisions at Sea", particularly when navigating within the dredged channel North of the S.W.I.G.G. buoy (South West Inner Green Grounds) to the harbour entrance. You are advised to approach the harbour entrance in the waters to the west of the dredged channel (where practicable).

Large vessels entering or leaving the harbour must be given a wide berth at all times.

All pleasure craft must be under power when in the vicinity of the harbour and should clear waters used by commercial shipping as soon as possible.

Access to Tidal Locks

All access from the sea to the Marina is through the Tawe Barrage Lock during the published hours. During busy locking periods a queuing system will be in operation. Vessels that do not make contact with the Lockmaster or disobey his/her instruction will not be given priority over other traffic. In the interest of every boat owner's safety, it is of the utmost importance that the Lockmaster's instructions are obeyed at all times.

Vessels leaving either lock must then transfer to the next lock's VHF channel on approach and use the appropriate procedure above.

Lock Availability

It is essential that all boat owners wishing to proceed through the locks or swingbridge operate a VHF radio. Vessels must call "Swansea Marina" on channel 80 before leaving their berth to request lock information and must remain listening on CH. 80 until passage through the bridge or lock is completed.

When you require use of the Tawe Barrage lock you must call 'Tawe Lock' to request information and remain listening on CH. 18 until passage through the lock is completed. Do not proceed into the locks unless instruction has been given.

Lock Operating Hours

Weekdays 0700 – 1900 GMT

Weekdays 0700 – 2200 BST

Sat/Sun 0700 – 2200 BST & GMT

Tawe Barrage Lock – call sign: 'Tawe Lock' CH. 18

Marina & Swingbridge – call sign: 'Swansea Marina' CH. 80

Important Notes

Lock Procedure and Tidal Curves, Datum, Time & Height Differences at Swansea Marina

Normal procedure for locking out through the Tawe Barrage lock is for the lock to be taken down on the hour and return to the river on the half hour.

The first lock out of the day at the Tawe lock will be taken down at approximately 0710.

The last Tawe lock in is half an hour before the close of business each day.

Boat owners should be ready to leave their berth at approximately quarter to the hour to allow vessels sufficient time to enter the Tawe lock.

Any deviation from the above will be at the discretion of the duty Tawe Lockmaster who will pay due regard to the volume of traffic and any other prevailing conditions.

Any vessels not returning on the same day are required to inform the Lockmaster and Coastguard. A holding buoy is situated downstream from the lock and may be used outside of locking hours. Great care is necessary at low water spring tides as there is a danger of drying out.

**DO NOT PROCEED
LOCK CLOSED
OR FREE FLOW
IN OPERATION**

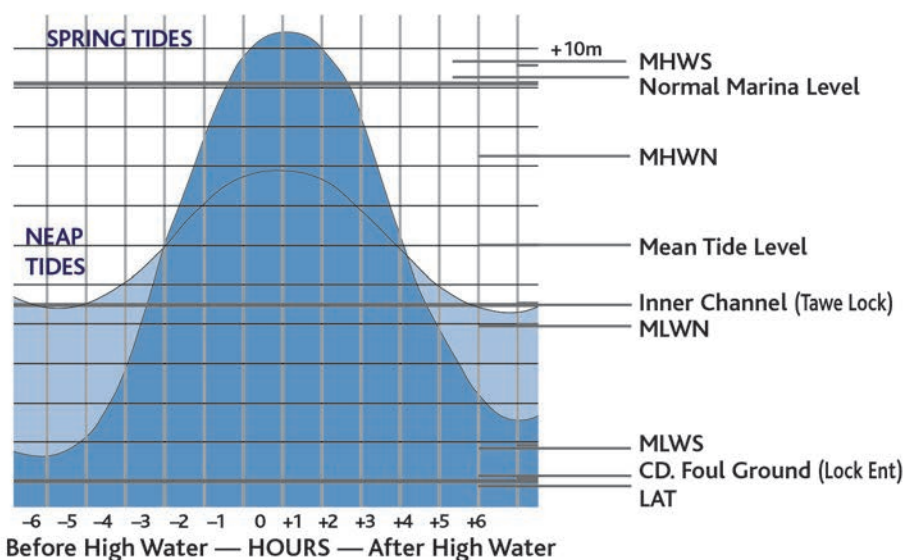

**DO NOT PROCEED
LOCKING IN PROGRESS**

**FREE FLOW
IN OPERATION**
proceed with caution
allowing sufficient room
for the preceeding vessel
to manoeuvre to its berth

Blue Flag

Swansea Marina is proud to have held the coveted international Blue Flag award since 2012. The Blue Flag Award criteria demonstrates that the marina is managed with high standards of environmentally sustainability, cleanliness and safety. The award is managed in Wales by Keep Wales Tidy.

Recent Improvements

- Over 20 shopping trolleys removed from the Marina & River Tawe waters
- Up to 4,000 litres of waste oil and bilge water collected and is safely recycled
- Empty Antifoul tins collected around the boatyard are crushed, placed in 205Ltr drums. During 2019 three drums were sent off site for recycling avoiding landfill.
- Hard Plastic is collected and Recycled
- A New interceptor has recently been installed at the boat wash area.

Individual Blue Flag

You can also make a difference, simply join us and sign up to the Code of Conduct. You will receive a Blue Flag for your boat, to show that you respect those rules, and that you are a proud lover of our Coastline.

Call at reception for more information.

More than a

Swansea Marina, where the city meets the sea.

The Marina's unique location guarantees something to please every member of the family...

Swansea Marina's central location in the Bristol Channel makes it an unsurpassed cruising centre with marinas to the east including Cardiff, Watchet and Portishead, with Neyland and Milford Haven to the West. The spectacular, rugged coastline of Devon is a mere twenty or so miles away.

The vibrant city centre of Swansea lies right on our doorstep. With a huge range of shops and a world-famous covered market this is just the place to indulge in a little retail therapy! There are a large number of bars and cafes and an increasingly cosmopolitan range of restaurants.

Marina...

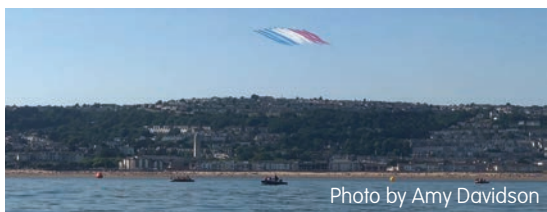

Photo by Amy Davidson

If the sun is shining why not enjoy your coffee al fresco at one of the many establishments offering tables with a view over the water.

When the weather is less kind you can enjoy one of our museums or art galleries, or take the children to the fabulous water park at the LC2.

If you should decide to moor with us permanently you will find that there is something happening throughout the year. Annual events include the Waterfront Wonderland with its winter fair and ice skating; the annual Air Show, in the spring the annual Clyne in Bloom event and, of course, the Swansea Bay Summer Festival with events too numerous to mention.

Closer to home lie the charming villages and breathtaking coastline of the Gower Peninsula. Whether you are looking for

secluded rocky coves or sweeping sandy bays you will not be disappointed. Gower beaches frequently feature in lists of top twenty British beaches, why not visit and find out why.

Sports fans will not be disappointed; we are not far from top flight rugby and championship football at the city's Liberty Stadium. All watersports are well catered for and numerous gyms offer the opportunity to work off last night's dinner!

Swansea's new 3,500 capacity Arena is due to open its doors in March, checkout who is performing and purchase tickets at www.atgtickets.com/venues/swansea-arena.

So, whatever the weather and whatever the time of year, the city of Swansea and its acclaimed marina will always have something to offer.

Swansea Marina

Boatyard Services

- 20 tonne marine travel hoist
- 1 tonne crane for masts/engines
- Large boatyard
- 24hr access to yard
- Electricity supplies
- Water points
- Friendly, experienced staff on hand
- Established companies onsite including mechanical engineers, electrical services, riggers, valeting, antifouling and boat repair services

Not an annual berth holder at Swansea Marina?

Not a problem...

We offer boatyard facilities to all local marinas and yacht clubs between May and September.

Booking a space couldn't be easier - simply call us on **01792 470310** one week in advance, and if the weather is against you when you are due to sail to us, we will re-arrange the booking at no cost.

Boatyard space is subject to availability.
